

Karen Teacher Training College (KTTC) students building more relationship with community

On November 6, 2008, sixteen KTTC students and three teachers started their trip to Lu Thaw Township, Mutraw District. They divided themselves into three groups and visited villages located in down side of SPDC road. The purpose of their trip was to enhance their understanding about the community, to exchange their knowledge with local people and to build stronger relationship with them.

The groups visited Lay Wah, Hkeh Pa and Doh Heh Der villages and invited villages near the areas to join their exchange program.

"I learned a lot from visiting school and community last year. I understood more about the feeling of teachers and learned from their experience", said Saw Hsoe Ter Keh, KTTC year two students.

KTTC students visited New Generation School (NGS) on December 24, 2000. They practiced knowledge exchanging and built more relationship with students there.

Student trip for knowledge exchanging is organized every year on November and December. KTTC and NGS are the two post- ten schools located in Mutraw District, Karen State.
